

## 2011 Honeywell Customer & Product Support Operators Conference Overview

Honeywell offers scheduled operator conferences *free of charge* at various regional locations throughout the year. The purpose is to provide operators, pilots and maintenance personnel updates on upcoming hardware/software changes as well as information on the Customer & Product Support and Sales organizations.

At each conference there will be two rooms that run concurrently. One room is for engineers, maintenance crews or avionics technicians and the other is for pilots or anyone interested in the operational-type material presented in the pilot session. The agendas for the pilot sessions can be found below. To register for a seminar or for additional information, please contact Pam Mannon at +1-913-961-1901, email [Pamela.mannon@honeywell.com](mailto:Pamela.mannon@honeywell.com) or visit the flight operations website at [www.mygdc.com](http://www.mygdc.com).
